ABOUT ME

“As a local councillor, I am committed to ensuring a strong voice for the community and responding to their needs.

“In this election, voters have the chance to elect a government that is not purely controlled by the major parties, with a second Greens senator for NSW.

“A government that has to negotiate on legislation will have to make real changes to address climate change, government integrity and the need for affordable housing for all Australians.

“This is the decade in which Australia must address injustice and transition our economy to zero carbon.”

Charles is a councillor and former Deputy Mayor of Canada Bay Council. His professional experience includes information technology, community development, the energy industry and adult education.

PAYING FOR OUR PLANS

1 in 3 big corporations pay no tax. When billionaires and corporations don't pay enough tax, essential services like health and education suffer. We will tax the billionaires and big corporations, and cut the handouts they receive.

Greens NSW does not accept corporate donations. Big business sponsors the major parties who have received over \$200m of corporate donations over the past decade and still support continued fossil fuel mining, generation of electricity and exports. That's why we need the Greens in the balance of power.
